

# BORDEN LIGHTING

999 Montague Street  
San Leandro, CA 94577  
phone 510.357.0171 • fax 510.357.3832

Successful custom lighting begins with a close collaboration between specifier and manufacturer and results in fixtures that combine the finest in design, materials and craftsmanship. Borden Lighting is proud to have collaborated with many designers to create unique and beautiful light fixtures. Our Custom Gallery can function as a source of inspiration, while at the same time showing our capabilities.

Our Custom Gallery has been reformatted and has a lot of new content. Each featured fixture is shown in the context of the project and in close-up. They are in PDF format for easy printing, as shown to the right. Shown below is what you will see when you click on Custom Lighting on our home page or Custom Gallery when in the Architectural Lighting section of our website. Clicking on the image below will take you to the gallery.

### CUSTOM GALLERY - LIBRARY

PROJECT:  
San Mateo Library  
San Mateo, CA  
ARCH: EHDD Architecture - San Francisco  
SPEC No: 8D-2027 (2006)

These simple table lamps are designed to blend and be consistent with the architecture. The 13W CF lamps are energy efficient while providing low-glare, providing data ports and a convenience outlet at some locations.
