## PRODUCT GUIDE

We are excited about our new specification tool — our new PRODUCT GUIDE. Our Guide acts as a bridge between something you can hold in your hand and our website. This easy to use guide gives the specifier a fast way to find a fixture for an application by type, lamping and finish. It then “guides” you in how to find a complete cut-sheet on our website that will have the most up-to-date information. Our “catalog” becomes the combination of the Product Guide and our website.

The Guide shows you how to find complete information including an interactive submittal drawing, installation instructions and photometrics, in three easy clicks on our website.

Our PRODUCT GUIDE will be available in February 2010. It will also introduce 7 new fixtures. Ask your rep. to reserve a copy.

## FEATURED MOD PRODUCT M550

This simple modification of Hauslights model 550 replaced an incandescent fixture that was a constant maintenance problem. The modification adapted the fixture to the existing signage plaque.

Winter 2010
