Summer 2009

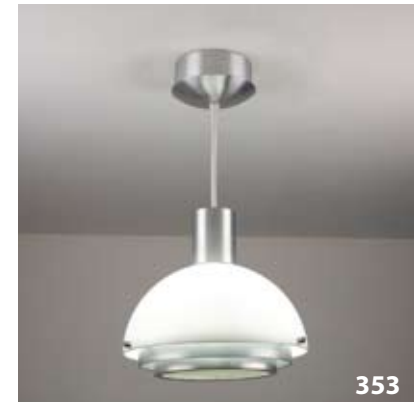

NEW PRODUCTS

Borden Lighting has introduced 26 new products. These new fixtures broaden our product line, while offering more size, finish and lampping options. Click on an image to see more new products.

FEATURED NEW PRODUCT 750

This clean and simple wet location fixture is available with an integral emergency battery pack (IEM) and LED's. It features high recycled content in its cast aluminum and bronze parts. [Click here to see the catalog page.](#)

FEATURED MOD PRODUCT M808

This simple modification combines the 807 ring baffle with the 808 table lamp. These fixtures are hard wired, but individually switched. Used in a branch library in San Leandro, CA.

FEATURED PROJECT: Bardessono Inn & Spa

This Napa Valley luxury resort has applied for a LEED Platinum rating. Borden Lighting is proud to have contributed to the sustainability efforts with fixtures that have high recycled content. [Click here to see more on the project.](#)
