

# LIGHTING FOR UNIVERSITIES

**Project: UCLA LUSKIN CONFERENCE CENTER**  
**ARCH: Hornberger Worstell**  
**San Francisco, CA**

JUNE  
2017

The Luskin Conference Center provides meeting space for members of the campus community to host summits and events. The center features 25,000 SF of conference space, 254 guest rooms and a restaurant. The facility is one of just a handful of university operated conference centers in the US. The building has been built to LEED Gold standards. Borden Lighting provided the large scale wall mounted fixtures that feature onyx, oxidized brass metalwork, and LEDs.
