

BORDEN LIGHTING

460 Roland Way
Oakland, CA 94621
phone 510.357.0171 fax 510.357.3832

As an Architectural Lighting Company, we believe that application photos are important. For over a decade, we have been showing application photos in the Featured Project section of our website. The archive has become quite large with literally hundreds of photos. To make this archive more accessible and useful it has been reorganized by project type, as shown in the screen shot to the right. Today it is often hard to tell if you are looking at real photos or virtual images. All of the photos you view in our Featured Project section are real photos made with available light and not Photoshopped.

For people unfamiliar with our capabilities, it's a quick way to see the range of products we have participated in and at the same time see standard fixtures as well as modified and custom.

We have a printed overview of Featured Projects which is shown below. Ask your rep or call the factory to get a copy.
